# **Technical Date Sheet**

## **ALL RUBBER ANTI-VIBRATION PAD**

#### Submittal Information

Part No Document No. Date Revision 18312-18316 SPEC18312 2020-02-05 01

50 psi (pound per square inch)

### **General Properties**

Material: Color: Max Loading capacity: A- Rubber: EPDM blend, a neoprene blend, or vinyl blend. Black

Applications

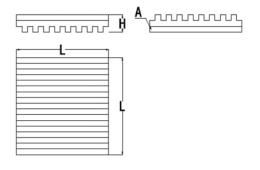

- Heavy duty mini split heat pumps
- Air compressor
- Stereo equipment
- Machinery
- Generator
- Water pumps
- Furniture

#### Features

- Made of high strength rubber, which is structurally sounder than cork, more effective at vibration dampening than solid rubber.
- Made from high quality elastomeric materials, extreme vibration attenuation is the latest generation.
- Designed for indoor & outdoor applications.
- Compounded for excellent resistance to aging, compression set & oil.
- Rubber pads with cork sheet cork with ribbed pads on either side for added isolation and. positive grip Have excellent vibration-reducing effect.

Note: It didn't smell good at first, do not worry about that, it is eco-friendly
